

What should you ask a pool builder?

POOL BUILDER QUESTIONS:

1. Has the builder been in business under the same management for a number of years?
2. How is their record with the Better Business Bureau?
3. Do they have a general contractor's license, not simply a home improvement license?
4. Are they fully insured with liability and workman's compensation?
5. Can you visit their office and see how the construction process is done?
6. How will they communicate with you after the contract is signed?
7. Do they have trained staff to support you after the pool is completed?
8. Do they have a good list of references?
9. What type of warranties do they offer on their pool craftsmanship?

MEMPHIS POOL ANSWERS:

1. We are the oldest, most respected and experienced pool builder in the Mid-South. Whereas other builders come and go, we have remained successfully in business since 1952.
2. Our record with the BBB is virtually untarnished after over 55 years of doing business in the Mid-South.
3. Some contractors use Home Improvement licenses; however, they cannot legally build a pool that costs over 25K. We can build pools up to 1.5 million dollars.
4. Insurance protects your investment. A good contractor will at least have \$1,000,000 liability to protect you and carry workman's compensation insurance to protect workers.
5. We are the only members in the Mid-South of the prestigious Master Pools Guild, which ensures we follow the highest standards of pool building maintained by the world's master pool builders. We also have a showroom and welcome you to come take a tour, where we can walk you through your design options and the construction process.
6. We keep in constant contact with you through email and phone to ensure all of your questions are answered when you need them answered.
7. We have three area retail stores, an online store, and a professional service department to support you with all your pool care needs.
8. We not only have references available at your request but also testimonials from satisfied customers.
9. We offer a lifetime guarantee on our pool shell and three years on the mechanical equipment. No other builder comes close.
